FORM 4 (Rule 5)

Section 8 of Care of Cathedrals Measure 2011
Public Notice on application to the Fabric Advisory Committee

PUBLIC NOTICE

TAKE NOTICE that the Chapter of the Cathedral Church of:

The Cathedral and Metropolitical Church of St Peter in York

has on this date: 9 June 2022

applied to the Fabric Advisory Committee of the said cathedral for approval of the following proposal:

The Chapter of York proposes to conserve a Millennium Chalice created by silversmith Michael Lloyd in 2000, which was accidentally damaged through dropping while in use in 2016. Accession no. YORDC.2013.199.1

Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]

The repair work will be carried out by the original maker, Michael Lloyd. He has assessed the work required as follows:

The Chalice consists of a double skinned cup, a solid knop and an octagonal base with chased decoration. The foot of the base has a rectangular wire which, in turn, is connected to a band of silver with an inscription naming the donor of the Chalice.

The damage is restricted to the base of the Chalice, the foot having been distorted by approximately 16mm: the decoration, base wire and inscription ring are all included in this distortion.

The repair will require hammerwork and the use of snarling irons to re-establish the octagonal form, plus several fillings of pitch to enable the chased decoration to be repaired after the hammerwork.

The repair process also involves heating the Chalice to soften the silver, which will burn off the gilding inside the cup. Regilding will be carried out by a specialist gilder.
