To erect a temporary workshop for 8 stonemasons within the current South Quire compound.

Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]

From January 2023 the Works Department will have to move into temporary accommodation to facilitate the redevelopment of the existing Stoneyard to create the new Technology Hub. It is proposed that temporary accommodation (for 18 months) is provided for 8 stonemasons in a new workshop within the South Quire compound.

The workshop is essentially a large version of the temporary workshop built at the West Front to create the statue of The Queen and will measure 10m x 5.8m. It will be built on the concrete pad in the compound. The roof will be constructed of steel sheets with clear Perspex used to allow light in. There will be a further two Perspex panels 2m x 1m to allow extra light in. The scaffold frame will be clad in the normal white horadtek sheets.
